TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 21, 2017

Mr. Virgilio Cocianni, Remediation Manager
Schlumberger
121 Industrial Blvd
Sugar Land, Texas 77478

Re: Former Cameron Iron Works Facility, 1000 Silber Road, Houston, Harris County, Texas;
Voluntary Cleanup Program (VCP) No. 221; Regulated Entity No. RN101474880,
Customer No. CN600405872

Dear Mr. Cocianni:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the September 8, 2017 report entitled "2017 Semiannual Monitoring Data Transmittal", prepared on your behalf by CH2M Engineers, Inc. After careful review, the TCEQ accepts the report and notes the following.

Sampling results indicate that 1,1-dichloroethene, tetrachloroethene, and trichloroethene were reported above the critical protective concentration levels (cPCLs) at several monitoring well locations (MW-74, MW-93R, MW-97, MW-160, and MW-168) throughout the groundwater plume. In addition, grab samples collected from the Harris County Flood Control District Ditch resulted identified no analysis results reported above the cPCL. The reported concentrations remain historically consistent and no new notifications were required based on the June 8, 2017 sampling event. The next sampling event is scheduled for December 2017.

Future submittals should be mailed to the TCEQ, Voluntary Cleanup Program, mail code MC-221, at the letterhead address. Please provide one paper copy and one electronic copy (on USB or disc) of all submittals. You may contact me with any questions at (512) 239-2205.

Sincerely,

A handwritten signature in black ink, appearing to read "Rodney Bryant".

Rodney Bryant, Project Manager
VCP-CA Section
Remediation Division
