## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

September 14, 2016

Mr. Virgilio Cocianni, Remediation Manager  
Schlumberger  
121 Industrial Blvd  
Sugar Land, Texas 77478

Re: Former Cameron Iron Works Facility, 1000 Silber Road, Houston, Harris County, Texas;  
Voluntary Cleanup Program (VCP) No. 221; Regulated Entity No. RN101474880,  
Customer No. CN600405872

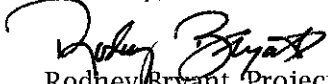

Dear Mr. Cocianni:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the August 23, 2016 reports entitled "*First Half 2016 Monitoring Data Transmittal*", as well as the "*TRRP 350.55 Notifications*". The TCEQ concurs with the information found within the two referenced documents.

The TCEQ understands that the plume continues to be influenced by the I10/610 dewatering system which lies east of the largest plume. Groundwater concentrations are generally decreasing if not remaining stable. However, concentrations continue to exceed the protective concentration level (PCL) most notably for 1,1-dichloroethylene (DCE), with minimal change. The report also noted that MW-128 (located at 316 Buckingham Drive) was no longer accessible due to the installation of a large raised flower bed. Please forward any plans to replace MW-128, or identify if another well within the network will suffice in determining impacts to groundwater for this location. Please continue with your sampling efforts as stated in the August 29, 2003 approved Response Action Plan (RAP), forwarding any results to my attention. The next sampling event is scheduled for the third quarter of 2016 with results being submitted for TCEQ review within 60 days of completion.

Please reference VCP No. 221 on the front of any future letters or reports. Future submittals should be mailed to the TCEQ, Voluntary Cleanup Program, mail code MC-221, at the letterhead address. You may contact me with any questions at (512) 239-2205.

Sincerely,

  
Rodney Bryant, Project Manager  
VCP-CA Section  
Remediation Division
