Re: *First Quarter 2015 Monitoring Data Transmittal* for the Former Cameron Iron Works Facility; 1000 Silber Road, Houston, Harris County, Texas; Voluntary Cleanup Program (VCP) No. 221; Regulated Entity No. RN101474880; Customer No. CN603108770

Dear Mr. Fasting:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the above-referenced submittal. The TCEQ notes the applicant continues to emphasize that the semi-volatile compound (SVOC) groundwater contaminant plume continues to be affected by the dewatering system at the I-610/I-10 interchange.

Contaminant concentrations in groundwater collected in the first quarter of 2015 from select locations were used to assess the effectiveness of the selected remedy. The magnitude and trends of the noted chemicals of concern remain consistent with prior sampling data. Please continue the sampling efforts, evaluate for plume expansion and forward results to my attention.

Should you need to respond to this letter, please submit your response to my attention at the TCEQ with the letterhead address using mail code MC-221. If you wish to reach me by phone, please do not hesitate to call me at (512) 239-2205.

Sincerely,
