TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

November 18, 2011

Mr. Ted Fasting
Director, Environmental Health & Safety
Cameron International Corporation
1333 West Loop South, Suite 1700
Houston, Texas 77027

Re: Comments to Third Quarter 2011 Monitoring Data Transmittal dated November 14, 2011, Former Cameron Iron Works - Katy Road Facility, 1000 Silber Road, Houston, Harris County, Texas; Voluntary Cleanup Program (VCP) No. 221; RN101474880, CN600374821

Dear Mr. Fasting:

The VCP of the Texas Commission on Environmental Quality (TCEQ) has reviewed the above referenced submittal. Based on the requirements of the October 25, 2004, and December 30, 2004, TCEQ letters concerning the method that will be used to determine when more frequent monitoring or remedial response actions will be required, the TCEQ has the following comments. No response to these comments is required.

1. The TCEQ notes the concentrations of chemicals of concern (COCs) in trigger well MW-173 in the Stablewood Subdivision have been reported as *Not Detected* since the operation of the remediation system began in June 2010.
2. The TCEQ agrees with the continued quarterly monitoring of COC concentrations in groundwater at trigger wells MW-59, MW-74, MW-84, MW-122, MW-125, MW-134, and MW-173 as shown on Table 1.
3. The TCEQ notes that the presence of permanganate will be monitored in the wells comprising the injection galleries and select monitoring wells in the treatment areas.
4. The TCEQ notes that the drought and dewatering project at the I-610/I-10 Interchange are influencing concentration trends in some areas of the offsite plume, and that additional data collection activities are underway to modify the response action. A Revised Response Action Plan will be provided to the TCEQ.

Mr. Ted Fasting
